American Made Steel

Certified Service Disabled Veteran owned Small Business Enterprise. / DVBE / SDVOSB / MBE / SBE / LSBE / DBE

COMPANY OVERVIEW

SigTel, Inc. is the only DVBE Contractor in Southern California with the ability to offer full service Structural Steel and Misc Metals Packages on a large scale. Our internal expertise and network of partners allow us to provide Design Services, Engineering, Detailing, AISC Steel Fabrication, AISC Steel Installation services and turn-key Pre-Engineered Metal Buildings. This team of experienced professionals are bondable and possess a long list of impressive projects completed in cooperation with multiple clients, satisfying their DVBE, MBE, DBE, and SBE requirements. SigTel also has a Teaming Agreement with Columbia Steel, Inc., allowing both companies to work seamlessly, thus providing top-notch, full-service steel packages utilizing the latest technology in the industry.

The steel design and fabrication processes have seen dramatic improvements throughout the last 10 years, and we are not only keeping up with those innovations - we are leading through the use of cutting-edge 3D modeling technologies from start to finish, reducing costly delays and unnecessary changes. SigTel manages not only projects, but all of partners through-out the project as well - including any outside subcontractors and/or vendors.

Core Competencies

- Estimating and Project Management Services
- Design Build Assistance for Structural Steel Projects
- BIM Coordination Services
- AISC Structural Steel and Misc. Metals Services
- AISC Steel Installation Services
- PEMB Design, Furnish, and Installation Services
