

SIG CO

SigTel

A SERVICE DISABLED VETERAN OWNED COMPANY

CAPABILITY STATEMENT

COMPANY OVERVIEW

SigTel, Inc. is a Service-Disabled Veteran-Owned Small Business (SDVOSB/CA DVBE) specializing in outside plant (OSP) and inside plant (ISP) telecommunications and electrical infrastructure. Founded and led by a U.S. Army Signal Corps veteran with nearly four decades in the industry, SigTel delivers fiber optic and copper cabling, splicing, testing, and network infrastructure for Department of Defense, federal, state, and local customers.

SigTel, Inc.

1581 Monrovia Ave

Newport Beach, CA 92663

SAM UEI: K8EXH5L1JR96**CAGE Code: 7SSN7**

CORE COMPETENCIES

- OSP/ISP construction and design
- Underground and aerial fiber/copper installation
- Manhole and duct-bank systems
- Fabric innerduct (MaxCell) installation and pathway design
- Structured cabling systems
- Fiber/copper splicing, testing, and repair
- Electrical infrastructure

PAST PERFORMANCE

As a subcontractor to STRANTECH, Carverbeth, and Quantum Sky, SigTel has delivered OSP and ISP fiber optic cabling and electrical infrastructure across multiple military installations in California and Washington State. SigTel has also performed subcontracts for state and local agencies and major utility and telecommunications providers across California.
